Installation Guide

Optical Enclosure

USB Cable

AC Adapter

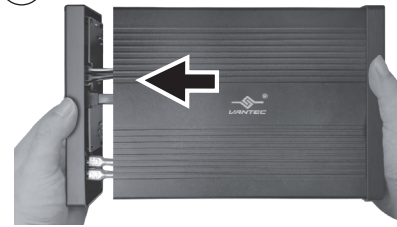

x4 Rubber Feet

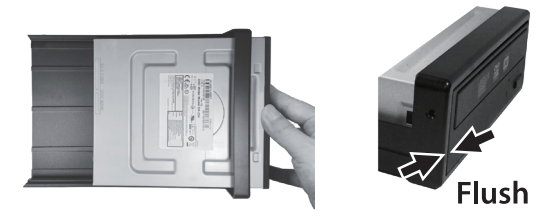

x12 Screws

1) Check the package content.

2a)

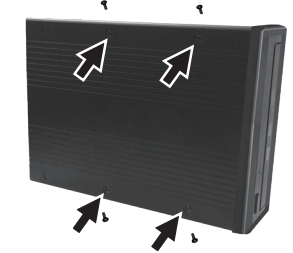

2c)

2b)

Front Cover

2a) Remove the back cover of the casing.

2b) Slide out the top casing cover with the Vantec logo away from the front cover.

2c) Place the optical drive onto the bottom tray, align the 4 screw hole on the bottom tray to your optical drive, and secure using 4 screws from the underside of the tray. The front of your optical drive should be flush against the front cover as shown.

3a)

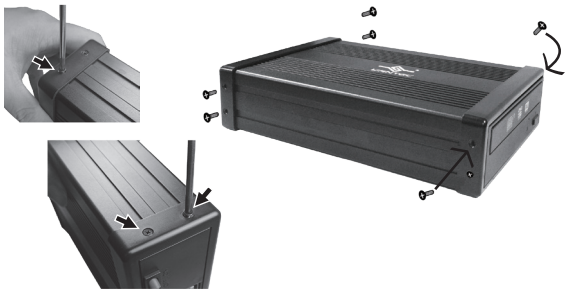

3b)

3c)

3d)

3e)

3a) Connect the SATA (power and data) connector from the back cover to your optical drive.

3b) Slide back the top cover with the Vantec Logo, the groove will only allow it to go in one way.

3c) Mount the back cover onto the casing. Note the orientation of the Vantec logo and back cover.

3d) Secure the back and front covers using the 6 screws provided. Your optical drive is ready for use.

3e) Tape the 4 provided rubber feet to the bottom of the unit marked.

4a) Turn ON your computer.

4b) Connect power to the wall outlet and the enclosure, connect the USB cable to your system and this enclosure.

4c) Turn ON the enclosure, no drivers are required, your system should acknowledge a USB storage device connected and ready.
