

ION 2

460 Watt Power Supply

PRODUCT DESCRIPTION

Vantec's ION 2 460W Power Supply is ideal for case modders and regular users alike. The ION 2 is extremely quiet, utilizing a large, temperature-controlled fan to cool itself. All of the cables have been pre-sleeved in black, cleaning up the overall look and reducing clutter significantly. Furthermore, the ION 2 provides just enough connectors for most systems, eliminating the need to hide unused cables and connectors. The ION 2 also features Vantec's EZ-Grip connectors, which are easier to plug in and remove than standard power connectors, and 2 SATA power connectors. Quiet, attractive and practical, the Vantec ION 2 is perfect for virtually any system.

Ultra Quiet!

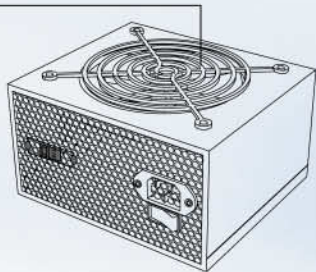

FEATURE DIAGRAM

EZ-Grip Connectors. (x8)

Ultra Quiet Temperature Controlled Fan.

Universal Connector.

PCI Express.

Serial ATA Hard Drive Power Connectors. (x2)

FEATURES
