FOR IMMEDIATE DISTRIBUTION:**

Vantec Releases the Culoré Multi-Card Reader & Hub

The Culoré Multi-Card Reader Series Combines Fashionability and Functionality into a Portable Device

FREMONT, California – October 8, 2009 – Vantec Thermal Technologies, a worldwide leader specializing in computer accessories introduces two new card readers to their lineup—the Culoré Multi-Card Reader and Multi-Card Reader & Hub. The Culoré Multi-Card Reader is capable of reading sixty-six different types of memory cards and features a handy USB 2.0 cable that transforms into a carrying strap for extra portability.

The Culoré can support SD, Memory Stick, Compact Flash, and MMC and these are just some of the basic formats it can handle. The Culoré Multi-Card Reader has a designated slot for Micro SD and M2 memory eliminating the need of an adapter. The Hub version however has three USB 2.0 ports that can be helpful when it comes to today's netbooks that only comes with a few ports.

"We try to create a product that looks less intimidating when it comes to technological gadgets," claims Jonathan Yu, Product Manager at Vantec. "The Culoré can be used by just about anyone needing access to their memory cards and looks good while using it."

The Culoré comes in colors of pink, blue, or green and will be available this month at major retailers. For additional product information and full technical specifications on the product, please visit www.vantecusa.com.
