

NexStar: GX

EXTERNAL 3.5" HARD DRIVE ENCLOSURE
USB 2.0 INTERFACE

Hard drive not included

INTRODUCTION

The NexStar GX provides the next generation of external hard drive enclosures. More than conveniently allowing added storage, the NexStar GX increases expandability by integrating a powered USB hub. Using a specially designed SMART active/passive cooling system ensures that your drive stays cool and functioning optimally. The NexStar GX utilizes high speed USB 2.0, offering speeds up to 480 Mbps, 40 times the speed of USB 1.1! Smart and expandable, the NexStar GX is the ideal way to store and transfer your data.

High Speed USB 2.0

FEATURES

Smart Cooling

Cool your hard drive while minimizing noise with the built-in temperature controlled cooling system.

High Speed USB 2.0 Hub

Conveniently add USB devices to your computer.

Smart Power

NexStar GX will automatically power on/off in tandem with your computer.

Passive heatsink

Large contact area heat sink radiates excess heat to the outside of the enclosure.

Micro Security Slot

Protect your NexStar GX by anchoring to a desk via security cable lock (Not included).

SPECIFICATIONS

- ▶ Application:
3.5" IDE (Parallel ATA) Hard Drive, ATA-6 Compatible
- ▶ Interface/Ports:
USB 2.0 High Speed (USB 1.1) 1 port(4 pin)
1 Port upstream (B Type)/3 Ports downstream (A Type)
- ▶ Windows Requirements:
USB 2.0: Windows 98SE/ME/2000/XP
USB 1.1: Windows 98SE/ME/2000/XP
- ▶ Mac Requirements:
USB 2.0: Mac OS 10.2 or higher
USB 1.1: Mac OS 9.1 or higher
- ▶ Power Supply:
Universal auto-switching external power adapter
Input: AC 100-240V, 1.2A, 50-60Hz
Output: DC +5/1.5A, +12V/1.5A
- ▶ Enclosure Dimensions:
16.51 x 16.51 x 5.08cm

PACKAGE INCLUDE

- ▶ NexStar GX
- ▶ Power Adapter
- ▶ Power Cable
- ▶ USB Cable
- ▶ User Manual
- ▶ Driver CD
- ▶ Screws

Models: **NST-370GX**
▶ IDE to **USB 2.0**
