

# ION

400 Watt Power Supply

## ABOUT ION

Vantec presents Ion Power Supply with dual double-ball bearing fans inside and three-speed temperature control switch to balance the cooling while it generates the power. Standard ATX-12V 20 pin connector fits most of branded P4 motherboards. Over usage protection functions ensure and stabilize your system. Vantec Ion power supply is reliable as well as easy to install and compatible with most PC motherboards and systems.

## FEATURES

- ▶ Serial ATA Ready
- ▶ 2 Temperature Controlled Fans
- ▶ 3 Speed Thermal Fan Control Switch
- ▶ Additional AC Outlet For Peripheral
- ▶ ATX-12V
- ▶ Electric-Shock-Free Protection
- ▶ Over Voltage Protection
- ▶ Over Current Protection
- ▶ Short Circuit Protection
- ▶ Low Noise Level

## MAIN FEATURES

Dual Temperature Controlled Fans

ATX-12V Standard Connector

Serial ATA HDD Power Adapter (4 to 15 pin)

Additional AC Output For Peripherals

3 Thermal Fan Speed Control Switch  
(Auto, Low, Medium)

## SPECIFICATIONS

AC Input		100~120Vac / 200~240Vac 10/6A 60/50Hz						<b>Peak Load</b> (60 sec.)
DC Output		+3.3V	+5V	+12V	-12V	-5V	+5VSB	
VAN-400B	Max Output Current	26A	40A	16A	1.0A	0.8A	2.5A	<b>500W</b>
400W	Max Combined Wattage	220W		192W	12W	4W	12.5W	
		380W		28W
