### • Introduction:

Updating to SATA 6.0 has never been easier with the Vantec 2+1 SATA 6G & PCI-e Combo Host Card w/RAID. Integrated with SATA 6.0 technology, enjoy transfer rates of up to 6Gbps. This card offers the flexibility and versatility of a standard SATA I or II controller card but is also ready to handle any new SATA 6.0 hard drives that hit the market. What sets this card apart from the other SATA 6.0 controller cards is the feature of being able to setup a RAID 0 for speed or RAID 1 for redundancy. This plug and play controller card also boasts an IDE interface allowing you to connect two IDE hard drives allowing you to connect four hard drives in total. Upgrade your computer today

### • Specifications:

<b>Model:</b>	UGT-IS602R
