

11 in 1 USB 2.0 Card Reader

PRODUCT DESCRIPTION

From MP3 players to PDAs, data is increasingly being stored on memory cards. Unfortunately, with so many different types of memory cards, reading/writing to them can quickly turn your computer into a mess of wires and gadgets. The Vantec go 2.0 External 11 in 1 Card Reader/Writer brings you a convenient, compact way to share and exchange the files stored in flash memory cards from one simple device. Just plug the reader/writer onto a USB port and easily transfer files to and from and even between virtually all memory cards.
