NexStar VAULT

The Vantec NexStar® Vault is a portable security enclosure. With its simple-to-use keypad design, simply enter your 6 digit password to guard your data from unwanted access. Whether it is financial documents, passwords, or any type of sensitive materials, the NexStar® Vault will keep your data safe with its integrated encryption technology. The hard drive is formatted into two partitions; an open drive (Public) and a private drive (Vault). Store and share your files under the "Public" drive and keep your sensitive materials safely guarded in the "Vault". Simply connect the NexStar® Vault to any PC or Mac with an USB port—no drivers are required. Start protecting your valuable data with the Vantec NexStar® Vault!

USB 2.0
